CORE SKILLS

- LANGUAGES**
JavaScript, TypeScript, Node.js
- BACKEND**
NestJS, ExpressJS, GraphQL, Socket.IO
- DATABASE**
MySQL, MongoDB, DynamoDB
- ORM**
Prisma, TypeORM, Mongoose
- INFRASTRUCTURE**
AWS, GitHub Actions, CI/CD
- SECURITY & PAYMENTS**
JWT, RBAC, Stripe
- COLLABORATION**
Communication, Teamwork, Adaptability

PROFESSIONAL PROFILE

Backend Engineer with 4+ years of experience building production backend services and APIs using Node.js, TypeScript, NestJS, ExpressJS, GraphQL, MySQL, and AWS. Experienced in designing and delivering backend solutions for real-world product workflows, including authentication, payments, real-time features, search, and cloud-based services. Strong in translating business requirements into reliable technical solutions and contributing from requirement clarification through implementation, testing, and release.

CAREER SUMMARY

Nov 2024 - Present **Enosta**
NodeJS Developer

Key Responsibilities

- Built and delivered backend features for a production ride-hailing platform used by real users.
- Implemented Stripe-based payment capabilities, including payments, payouts, and subscriptions, for real-world transaction workflows.
- Evaluated technical trade-offs around performance, security, and data consistency to deliver suitable backend solutions.
- Participated in end-to-end product delivery, from requirement clarification and technical consultation to deployment and release.

Apr 2023 - Nov 2024 **TOMOSIA**
NodeJS Developer

Key Responsibilities

- Took ownership of backend features from requirement clarification to implementation and release for core application workflows.
- Worked with team members to design backend solutions that balanced maintainability, scalability, and delivery speed.
- Considered edge cases, access control, cost optimization, and system reliability when building cloud-based backend services on AWS.
- Implemented GraphQL using NestJS, TypeScript, Prisma, and MySQL.

Sep 2022 - Apr 2023 **CMC GLOBAL**
NodeJS Developer

Key Responsibilities

- Owned authentication and authorization-related backend tasks, including JWT, refresh tokens, and role-based access control.
- Created APIs using NestJS, TypeScript, TypeORM, and MySQL.
- Proactively improved delivery workflow by integrating GitHub Actions into CI/CD processes for more consistent releases.

Oct 2021 - Aug 2022 **STDIO.HUE**
NodeJS Developer

Key Responsibilities

- Implemented a chat feature using Socket.IO.
- Researched and applied suitable technologies, including Elasticsearch, to support better product functionality and user experience.
- Built backend APIs using ExpressJS, TypeScript, and DynamoDB.

CERTIFICATION

- Stripe** | Stripe Certified Professional Developer
